

**Monteray Shores Homeowner's Association**  
P.O. Box 206  
Corolla, NC 27927

The attached form is the Monterey Shores Homeowners Association Architectural Standards Committee application for **residential building new construction**. All projects must be approved by the ASC **prior** to beginning work and the work must meet the criteria described in the Monterey Shores Architectural Guidelines. A copy of the Guidelines is available to download online and may be reviewed in person at the Clubhouse during regular Clubhouse hours. Fines and sanctions may apply if any unapproved work is performed.

The ASC currently meets at least twice monthly. For your application to be considered, it must be completed in full and submitted at least five business days prior to the meeting. You will be notified of the Committee's decisions within 45 days of receipt of the complete application, although the timeline may be shorter.

Applications must be accompanied by \$500.00 non-refundable processing fee and \$2,000.00 damage deposit before review. The damage deposit will be held to repair any damage to community property caused directly by this work. The deposit, less any damage assessment, may be returned to the applicant subsequent to successful completion of the project and after review by the ASC for any damage. The applicant must submit a written request for return of the deposit after all work is complete.

**The completed application must include: three copies** of the application form including checklist, survey, site plan, floorplan, and architectural drawing or another rendering of the elevation, **one** copy of any county permits or state licenses, **small samples** of roofing and siding material, **small samples** of paint color. (*Note: paint colors may be submitted later if not determined at initial application*), one check for \$500.00 and one check for \$2000.00 made payable to Monterey Shores Homeowner's Association.

If your initial submitted proposal requires major revision, or you elect a major revision, you must submit a revised plan with a \$50.00 review fee before new plans will be reviewed.

Prior to any clearing, excavation, or fill on a lot, the contractor will perform a string stake-out for inspection. All trees to be removed must be clearly marked. If the ASC approves this inspection, the applicant may commence site preparation work. Please refer to the Guidelines for detailed information on the steps in this process.

Send completed applications(s) and checks made out to **Monteray Shores Homeowners Association** to the address above. You may also drop them off at the Clubhouse or use the mail slot in the Clubhouse door. You will be contacted directly with any further questions and notified of the Committee's decision. If you have questions regarding this application, please email [mshoresasc88@gmail.com](mailto:mshoresasc88@gmail.com).

**New Construction Residential Building Application**  
**Site Plan Checklist**

The application must include a site plan. Submitted plans should be consistent in scale. (Suggested scale is 30 feet: 1 inch if possible.) Site plans must include the following:

- Access streets, walkways, and other exterior improvements
- Grading and drainage plan
- Fill plan, if any, indicating run-off and tree preservation method. See section FILL OF LOTS
- Foundation plans if other than slab on grade
- Exterior lighting plan
- Service yards
- Landscaping
- Tree survey showing location & species of trees four inches or larger in diameter and all shrubs involved.
- Site plan to scale, overlay on tree survey indicating all structures and other improvements to be included in the scheme with an indication of trees to remain and trees to be removed at the same scale as boundary/tree survey.
- Locations of contractor's sign, portable toilet, and any on site dumpsters
- Complete identification of all materials, colors of paint, and samples of proposed materials
- Indication of plan for erosion control for both windblown sand and rain driven erosion
